- Increase shell – (shell, ch 1, shell) all into the same space
- At the end of each round – join with a slip stitch to the top of the beginning ch 3
- After joining slip stitch across to the next space
- If you want to change colour you **MUST** join your new colour in the **NEXT** ch space after the join
- On some of the rounds we start midway through a repeat, it will be finished off when we come around and finish the round
